3 BASIS OF PREPARATION

3.1 Consolidated financial statements

These consolidated financial statements have been prepared from the information available in the unconsolidated financial statements of the Holding Company, CS Capital (Private) Limited and Solution de Energy (Private) Limited for the year ended 30 June 2021. Crescent Continental Gas Pipelines Limited is not carrying on any business operations and accordingly no financial statements are being prepared. Details regarding the financial information of associates used in the preparation of these consolidated financial statements are given in note 19 to these consolidated financial statements.

The accounting policies used by the subsidiary companies in preparation of their financial statements are consistent with that of the Holding Company. The accounting policies used by the Group's associates in preparation of their respective financial statements are also consistent with that of the Holding Company. Where policies are different, necessary adjustments are made to the financial statements of that associate or subsidiary to bring their accounting policies in line with those used by the Group.

3.2 Statement of compliance

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFASs) issued by Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards or IFASs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

3.3 Basis of measurement

These consolidated financial statements have been prepared under the historical cost convention except otherwise stated.

3.4 Functional and presentation currency

These consolidated financial statements are presented in Pakistan Rupees which is also the Group's functional and presentation currency. Amounts have been rounded to the nearest thousand of Pakistan Rupees.

4 USE OF ESTIMATES AND JUDGEMENTS

In preparing these consolidated financial statements, management has made judgement, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to estimates are recognised prospectively in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Information about judgements made in applying accounting policies that have the most significant effects on the amount recognised in these consolidated financial statements to the carrying amount of assets, liabilities, assumptions and estimation uncertainties that have a significant risk resulting in a material adjustment in the subsequent years are set forth below:

- Property, plant and equipment (refer note 6.2)
- Intangible assets (refer note 6.3)
- Investment properties (refer note 6.4)
- Investments (refer notes 6.5 and 6.6)

5 NEW STANDARDS, AMENDMENTS TO ACCOUNTING AND REPORTING STANDARDS AND NEW INTERPRETATIONS

5.1 Amendments to accounting and reporting standards and interpretations which are effective during the year ended 30 June 2021

There were certain amendments to the accounting and reporting standards which became mandatory for the Group during the year. However, the amendments did not have any significant impact on the financial reporting of the Group and, therefore, have not been disclosed in these consolidated financial statements.

5.2 Standards, interpretations and amendments to published accounting and reporting standards that are not yet effective but relevant

There are certain amendments to accounting and reporting standards that will be mandatory for the Group's annual accounting periods beginning on or after 1 July 2021 but are considered not to be relevant or have any significant effect on the Group's financial reporting.

Further, IFRS 17 'Insurance contracts' is yet to be adopted by the Securities & Exchange Commission of Pakistan (The SECP).

6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are consistently applied in the preparation of these consolidated financial statements are the same as those applied in earlier periods presented.

6.1 Basis of consolidation

Subsidiaries

The consolidated financial statements include the financial statements of the Holding Company and its subsidiary companies.

Subsidiaries are those entities in which the Holding Company directly or indirectly controls, beneficially owns or holds more than 50 percent of its voting securities or otherwise has power to elect and appoint more than 50 percent of its directors. The financial statements of subsidiaries are included in the consolidated financial statements from the date control commences. The financial statements of the subsidiaries are consolidated on a line-by-line basis and the carrying value of investment held by the Holding Company is eliminated against the Holding Company's share in paid up capital of the subsidiaries. The Group applies uniform accounting policies for like transactions and events in similar circumstances except where specified otherwise.

All material inter-group balances, transactions and resulting unrealized profits / losses are eliminated.

Investments in associates

Entities in which the Group has significant influence directly or indirectly (through subsidiaries) but not control and which are neither subsidiaries nor joint ventures of the members of the Group are associates and are accounted for under the equity method of accounting (equity accounted investees).

These investments are initially recognized at cost. These consolidated financial statements include the associates' share of profit or loss and movements in other comprehensive income, after adjustments, if any, to align the accounting policies with those of the Group, from the date that significant influence commences until the date it ceases. Share of post acquisition profit/loss of associates is recognized in the consolidated Profit or loss. Distributions received from associates reduce the carrying amount of investment. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that investment (including any long-term interests that, in substance, form part of the Group's net investment in the associate) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised in previous years.

The carrying amount of investments in associates is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the investments is estimated which is higher of its value in use and its fair value less costs to sell. An impairment loss is recognized if the carrying amount exceeds its recoverable amount and is charged to consolidated profit or loss. An impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount but limited to the extent of carrying amount that would have been determined if no impairment loss had been recognized. A reversal of impairment loss is recognized in the consolidated profit or loss.

6.2 Property, plant and equipment

Owned assets

Property, plant and equipment, except freehold land and capital work-in-progress are stated at cost less accumulated depreciation and impairment losses, if any. Freehold land is stated at cost.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of selfconstructed assets include the cost of materials and direct labour, any other cost directly attributable to bring the assets to a working condition for their intended use, the cost of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs, if any.

Subsequent expenditure

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within that part will flow to the Group and its cost can be measured reliably. The carrying amount of the part so replaced is derecognized. The costs relating to day-to-day servicing of property, plant and equipment are recognized in the consolidated profit or loss as incurred.

Depreciation

Depreciation is charged to the consolidated profit or loss on a straight line basis at the rates specified in note 16.1 to these consolidated financial statements. Depreciation on additions to property, plant and equipment is charged from the month in which an item is acquired or capitalized while no depreciation is charged for the month in which the item is disposed off or retained.

The assets' residual values and useful lives are reviewed at each financial year end and adjusted if appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

Disposal

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense in consolidated profit or loss.

Right-of-use assets

Upon initial recognition, an asset acquired by way of finance lease is stated at an amount equal to the lower of its fair value and the present value of minimum lease payments, each determined at the inception of the lease. Subsequent to initial recognition, the asset is stated at the amount determined at initial recognition less accumulated depreciation and impairment losses, if any.

Depreciation is charged on the same basis as used for owned assets.

Capital work in progress

Capital work in progress is stated at cost and consists of expenditure incurred and advances made in respect of tangible and intangible assets during the course of their construction and installation. Transfers are made to relevant assets category as and when assets are available for intended use.

Impairment

The carrying amount of property, plant and equipment is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the assets recoverable amount is estimated. The recoverable amount is the greater of its value in use and fair value less cost to sell. An impairment is recognized if the carrying amount exceeds its estimated recoverable amount.

6.3 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses, if any.

Subsequent expenditure

Subsequent expenditure on capitalized intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditure is expensed as incurred.

Amortization

Amortization is charged to consolidated profit or loss on a straight line basis over the estimated useful lives of intangible assets unless such lives are indefinite. Amortization on additions to intangible assets is charged from the month in which an item is acquired or capitalized while no amortization is charged for the month in which the item is disposed off.

Research and development expenditures

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognized in consolidated profit or loss as incurred.

Development activities involve a plan or design for the production of new or substantially improved products and processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized includes the cost of materials,

direct labour, overhead costs that are directly attributable to preparing the asset for its intended use and capitalized borrowing costs. Other development expenditure is recognized in consolidated profit or loss as incurred. Capitalized development expenditure is stated at cost less accumulated amortization and accumulated impairment loss, if any. However, during the year expenses incurred in respect of the project have been capitalized (Refer note 17).

Impairment

All intangible assets with an indefinite useful life are systematically tested for impairment at each reporting date. Where the carrying amount of asset exceeds its estimated recoverable amount, it is written down immediately to its recoverable amount. The carrying amount of other intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exist than the assets recoverable amount is estimated. The recoverable amount is the greater of its value in use and fair value less cost to sell. An impairment is recognized if the carrying amount exceeds its estimated recoverable amount.

6.4 Investment properties

Investment property, principally comprising of land and buildings, is held for long term rental yields / capital appreciation. The investment property of the Group comprises of land and buildings and is valued using the cost method i.e. at cost less any accumulated depreciation and impairment losses, if any.

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalized borrowing costs, if any.

Depreciation

Depreciation is charged to income on the straight line method at the rates specified in the note 18 so as to allocate the depreciable amount over its estimated useful life. Depreciation on additions to investment property is charged from the month in which a property is acquired or capitalized while no depreciation is charged for the month in which the property is disposed off.

The residual values and useful lives of investment property are reviewed at each reporting date and adjusted if appropriate.

Impairment

The Group assesses at each reporting date whether there is any indication that investment property may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in consolidated profit or loss. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future period to allocate the asset's revised carrying amount over its estimated useful life.

Disposal

The gain or loss on disposal of investment property, represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as income or expense in consolidated profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

6.5 Financial instruments

6.5.1 Initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

6.5.2 Financial assets

Classification

On initial recognition, a financial asset is classified as measured at:

- Amortized cost;
- Fair value through other comprehensive income (FVOCI) Debt investment;
- Fair value through other comprehensive income (FVOCI) Equity investment; or
- Fair value through profit and loss (FVTPL).

The classification depends on the Group's business model for managing financial assets and the contractual terms of the financial assets cash flows.

Amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVOCI - Debt investment

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVOCI - Equity investment

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in investment's fair value in OCI. This election is made on an investment-by-investment basis.

FVTPL

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL.

Subsequent measurement and derecognition

Financial assets are not reclassified subsequently to the initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

The financial assets classified at amortized cost are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognised in consolidated profit or loss. Any gain or loss on derecognition is recognised in consolidated profit or loss.

Debt investments classified as FVOCI are subsequently measured at fair value. Interest income calculated using effective method, foreign exchange gain and losses and impairment are recognised in consolidated profit or loss. Other net gains and losses are recognised in consolidated OCI. On derecognition, gains and losses accumulated in consolidated OCI are reclassified to consolidated profit or loss.

Equity investments classified as FVOCI are subsequently measured at fair value. Dividends are recognized as income in consolidated profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment, when the Group's right to receive payments is established. This category only includes equity instruments, which the Group intends to hold for the foreseeable future. On de-recognition, there is no reclassification of fair value gains and losses to consolidated profit or loss. Equity instruments at FVOCI are not subject to an impairment assessment under IFRS 9.

The financial assets classified at FVTPL are subsequently measured at fair value and net gains and losses, including any interest or dividend income, are recognised in consolidated profit or loss. Net gains and losses (unrealised and realised), including any interest or dividend income, are recognised in consolidated profit or loss.

Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The Group recognised a loss for ECL for financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate. The financial assets at amortized cost consist of trade receivables, cash and cash equivalents, and other receivables including loans to related party.

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. Management uses actual historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment to determine lifetime expected loss allowance. For other debt financial assets (i.e., loans etc.), the ECL is based on the 12-month ECL. The 12-month ECL is the portion of lifetime ECLs that results from default events on a financial instrument that are possible within 12 months after the

reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due and a financial asset in default when contractual payment are 90 days past due.

Derivative financial instruments

The Group enters into derivative financial instruments, which include future contracts in stock market. Derivatives are initially recorded at fair value and are remeasured to fair value on subsequent reporting dates. The fair value of a derivative is equivalent to the unrealized gain or loss from marking to market the derivative using prevailing market rates. Derivatives with positive market values (unrealized gains) are included in other receivables and derivatives with negative market values (unrealized losses) are included in other liabilities in the unconsolidated statement of financial position. The resultant gains and losses from derivatives held for trading purposes are recognized in consolidated profit or loss. No derivative is designated as hedging instrument by the Group.

6.5.3 Financial liabilities

Classification and subsequent measurement

The Group classifies its financial liabilities as those to be measured subsequently at amortized cost using the effective interest method, if they are not:

- contingent consideration of an acquirer in a business combination
- held-for-trading
- designated as at FVTPL

The Group does not classify any of its financial liabilities under FVTPL.

Derecognition

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in consolidated profit or loss and other comprehensive income.

Offsetting

Financial assets and liabilities are offset and the net amount is presented in the consolidated statement of financial position when the Group has a legal right to offset the amounts and intends to settle on a net basis or to realize the asset and settle the liability simultaneously.

6.6 Investment in commodities

Investment in commodities is initially recognised at cost, which is its fair value. Such commodities are principally acquired with the purpose of selling in near future and generating a profit from fluctuations in price. Subsequently, investment in commodities is stated at fair value less cost to sell. Changes in fair value is recognised in consolidated profit or loss.

6.7 Non-current assets held for sale

Non-current assets or disposal groups comprising of assets or liabilities that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. Immediately before classification as held for sale, the assets or components of a disposal group, are remeasured at lower of their carrying amount and fair value less costs to sell.

6.8 Stores, spares and loose tools

Stores, spares and loose tools are valued at lower of weighted average cost and net realizable value, less provision for impairment, if any. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon less impairment, if any.

Provision for obsolete and slow moving stores, spares and loose tools is determined based on management's estimate regarding their future usability and is charged to consolidated profit or loss.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated costs necessary to be incurred to make the sale.

Spare parts of capital nature which can be used only in connection with an item of property, plant and equipment are classified as fixed assets under the 'plant and machinery' category and are depreciated over a time period not exceeding the useful life of the related assets.

6.9 Stock-in-trade

Stock-in-trade is stated at the lower of cost less impairment loss, if any and net realizable value. Cost is arrived at on a weighted average basis. Cost of work-in-process and finished goods include cost of materials and appropriate portion of production overheads. Net realizable value is the estimated selling price in the ordinary course of business less costs of completion and selling expenses. The cost of finished goods of Steel segment is assigned by using specific identification of their individual costs. Scrap stocks are valued at their estimated net realizable value.

6.10 Trade debts and other receivables

These are initially stated at fair value and subsequently measured at amortized cost less provisions for any uncollectible amounts. An estimate is made for doubtful receivables when collection of the amount is no longer probable. Debts considered irrecoverable are written off.

6.11 Cash and cash equivalents

Cash and cash equivalents comprise of cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flow.

6.12 Employee benefits

6.12.1 Compensated absences

The Holding Company accounts for all accumulated compensated absences when employees render services that increase their entitlement to future compensated absences. No actuarial valuation of compensated absences is carried out as management considers its financial impact would be immaterial.

6.12.2 Post retirement benefits

6.12.2.1 Defined contribution plan - Provident fund

The Group operates a provident fund scheme for its permanent employees. Equal monthly contributions are made by the Group and its employees. Obligation for contributions to the fund are recognized as an expense in consolidated profit or loss account when they are due.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

Cotton segment

Provision and collection from employees are made at the rate of 6.25% of basic pay of Cotton segment employees. A trust has been established and its approval has been obtained from the Commissioner of Income Tax.

All employees except Cotton segment

Contributions to the fund are made at the rate of 8.33% of basic pay for those employees who have served the Company for a period of less than five years and after completion of five years, contributions are made at the rate of 10%.

6.12.2.2 Defined benefit plans

Pension and gratuity fund schemes

The Holding Company provides gratuity benefits to all its permanent employees who have completed their minimum qualifying service as per the terms of employment. The pension scheme provides life time pension to retired employees or to their spouses.

The Holding Company's obligation is determined through actuarial valuations carried out under the "Projected Unit Credit Method". Remeasurements which comprise actuarial gains and losses and the return on plan assets (excluding interest) are recognized immediately in consolidated statement of other comprehensive income. The Holding Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments. Net interest expense, current service costs and any past service costs are recognized in consolidated profit or loss. Any assets resulting from this calculation is limited to the present value of available refunds or reductions in future contributions to the plan. The latest Actuarial valuation was conducted at the reporting date by a qualified professional firm of actuaries.

6.12.3 Staff benevolent fund

The Holding Company has established staff benevolent fund as a separate legal entity under the Trust Act, 1882 and registered under Income Tax Ordinance, 2001. The objective of this fund is to provide at the discretion of the trustees, post retirement medical cover / facilities for retired employees and other hardship cases of extraordinary nature of existing employees of the Holding Company. Contributions to the fund are recognized as an expense in the profit or loss when they are incurred.

6.13 Mark-up bearing borrowings

Mark-up bearing borrowings are recognized initially at fair value, less attributable transaction costs. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in consolidated profit or loss over the period of the borrowings on an effective interest basis.

6.14 Lease liabilities

Leases are recognised as Right-of-use (RoU) asset and a lease liability at the lease commencement date except for short term or low value leases.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

For sale and lease back if the Group has obtained control of the underlying asset and the transfer is classified as a sale in accordance with IFRS 15 and measures a right-of-use asset arising from the leaseback as the proportion of the previous carrying amount of the asset that relates to the right-of-use retained. The gain (or loss) recognised is limited to the proportion of the total gain (or loss) that relates to the rights transferred.

If the consideration for the sale is not equal to the fair value of the asset, any resulting difference represents either a prepayment of lease payments (if the purchase price is below market terms) or an additional financing (if the purchase price is above market terms).

If the transfer is not a sale (that is, the Group does not obtain control of the asset in accordance with IFRS 15), it does not derecognise the transferred asset and accounts for the cash received as a financial liability.

6.15 Asset held under Ijarah financing

Assets held under Ijarah financing are accounted for using the guidelines of Islamic Financial Accounting Standard - 2 (IFAS 2), "Ijarah" as issued by Institute of Chartered Accountants of Pakistan (ICAP). The assets are not recognised on the Holding Company's statement of financial position and payments made under Ijarah financing are recognised in consolidated profit or loss on a straight line basis over the term of the lease.

6.16 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities. The definition of "Government" refers to Governments, Government agencies and similar bodies, whether local, national or international.

The Group recognizes government grants when there is reasonable assurance that grants will be received and the Group will be able to comply with conditions associated with grants.

Government grants are recognized at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Group will be able to comply with the conditions associated with the grants.

Grants that compensate the Group for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the Government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

6.17 Taxation

Group taxation

The Holding company has opted for Group taxation under section 59AA of the Income Tax Ordinance, 2001 along with its subsidiary Company, CS Capital (Private) Limited. Both companies are taxed as one fiscal unit under this scheme. The current and deferred income taxes have been estimated on income of each of the companies according to the applicable law and are recognised by each company separately within the Group, regardless of who has the legal liability for settlement or the legal right for recovery of the tax. Any adjustments arising solely due to Group taxation in respect of result of subsidiary is recognised in the Holding Company and the amounts paid to or receivable from the Holding company are adjusted accordingly.

Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits and tax rebates available, if any, and contains impacts of group taxation as explained above.

Deferred

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible differences, carry forward of unused tax credits and unused tax losses to the extent that it is probable that future taxable profits or taxable temporary difference will be available against which the asset can be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realized.

6.18 Revenue recognition

Revenue comprises of sales to third parties and is measured based on the consideration specified in contracts with customers and excludes rebates and amounts, if any, collected on behalf of third parties. Revenue is recognized either at a point in time or over time, when (or as) the Group satisfies the performance obligations as specified in the contract with the customer, and when it transfers control over the promised good or service to the customer.

Revenue from supply of electricity and steam is recorded upon satisfaction of performance obligation i.e. completion of service activity based on meter readings. Revenue is measured as per tariffs specified in contracts with customers.

The Group manufactures and contracts with customers for the sale of bare pipes, coated pipes, steel billets, cotton and electricity products which generally include single performance obligation. Management has concluded that revenue from sale of goods be recognised at the point in time when control of the product has transferred, being when the products are delivered to the customer. Invoices are generated and revenue is recognised at that point in time. Delivery occurs when the products have been shipped or delivered to the customer's destination / specific location, the risks of loss have been transferred to the customer and the customer has accepted the product. The customer has accepted the product as per the sales contract or lapse of acceptance provision specified in the contract or the Group has objective evidence that all criteria for acceptance have been satisfied. Contract for the sale of bare and coated pipes contains penalty clause on account of delay supply (liquidity damage). Under IFRS 15, these amounts are referred to as 'variable consideration'. The consideration which the Group receives in exchange for its goods or services may be fixed or variable. Variable consideration is only recognized when it is highly probable that a significant reversal will not occur. Revenue is measured based on the consideration specified in a contract with a customer, net of liquidity damages (penalties) and excludes amounts collected on behalf of third parties. A receivable is recognised when the goods are delivered.

6.19 Investment and other income

Interest income is recognized using the effective interest method.

Dividend income is recognized when the right to receive the same is established i.e. the book closure date of the investee company declaring the dividend.

Gains and losses on sale of investments are accounted for when the commitment (trade date) for sale of security is made.

Unrealized gains and losses arising on revaluation of securities classified as 'fair value through profit and loss' are recognized in consolidated profit or loss in the period in which they arise. Gains and losses arising on revaluation of derivatives to the fair value are also recognized in consolidated profit or loss.

Rental income (net of any incentives given to lessees) from investment property is recognized on a straight line basis over the lease term.

6.20 Borrowing costs

Borrowing costs incurred on long term finances directly attributable for the construction / acquisition of qualifying assets are capitalized up to the date the respective assets are available for intended use. All other mark-up, interest and other related charges are taken to consolidated profit or loss.

6.21 Provisions

A provision is recognized in the consolidated statement of financial position when the Group has a legal or constructive obligation as a result of past events, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

6.22 Impairment

The carrying amount of the Group's assets is reviewed at each reporting date to determine whether there is any objective evidence that an asset or group of assets may be impaired. If any such evidence exists, the asset's or group of assets' recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of its value in use and fair value less cost to sell. Impairment losses are recognized in consolidated profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

6.23 Foreign currency translation

Foreign currency transactions are translated into Pakistan Rupees at exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistan Rupees at the rates of exchange prevailing at the reporting date. Exchange differences, if any, are recognized in consolidated profit or loss.

6.24 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting structure. Management monitors the operating results of its business units separately for the purpose of making decisions regarding resource allocation and performance assessment.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment and intangible assets.

6.25 Proposed dividend and transfer between reserves

Dividend distributions to the Holding Company's shareholders are recognized as a liability in the period in which dividends are approved. Transfer between reserves made subsequent to the reporting date is considered as a non-adjusting event and is recognized in the period in which such transfers are made.

6.26 Earnings per share

The Group presents earnings per share (EPS) for its ordinary shares. EPS is calculated by dividing profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year.

6.27 Contingencies

Contingencies are disclosed when Company has possible obligation that arises from past event and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of entity, or a present obligation that arises from past event but is not recognised because it is not probable that an outflow of resources embodying economic benefit will be required to settle the obligation or, when amount of obligation cannot be measured with sufficient reliability.

8 **RESERVE**

8.1 Capital reserve

This includes share premium reserve amounting to Rs. 1,020.9 million and as per section 81 of the Companies Act, 2017, this can be used for following purpose:

- to write off preliminary expenses of the Holding Company;
- to write off expenses of, or the commission paid or discount allowed on, any issue of shares of the Holding Company;
- in providing for the premium payable on the redemption of any redeemable preference shares of the Holding Company; and
- to issue bonus shares to its members of the Holding Company.

8.2 Revenue reserves

Fair value reserve

This reserve has been maintained by the Holding Company for the purposes of cumulative changes in fair value in investments classified as FVOCI.

General reserve

The balance in general reserve has been accumulated by way of transfers from unappropriated profit on a yearly basis.

| Closing balance as at 30 June 2021 | 204,601 | 3,242 | 45,421 | 253,264 |

12.3.1 This relates to amount recognized on account of infrastructure fee / cess levied by the Government of Sindh (GoS) through Sindh Finance Act, 1994, and its subsequent versions including the Sindh Development and Maintenance of Infrastructure Cess Act, 2017 (the Act). The Act validates the fees / cess levied through the earlier versions of the law and continues the levy.

The Holding Company contested this issue of levy and charging of fee / cess in the Sindh High Court (SHC) where the appeal was partly accepted and it was held in judgment dated 15 September 2008 that the levy and collection of infrastructure fee prior to 28 December 2006 was illegal and ultra vires and after that it is legal. The Holding Company filed an appeal in the Supreme Court of Pakistan (SCP) against this judgment. Additionally, the GoS also filed appeal against the part of judgment decided against them.

The above appeals were disposed off in May 2011 with a joint statement of the parties that, during the pendency of the appeal, another law (a new version) came into existence which was not subject matter in the appeal. Therefore, the decision thereon be first obtained from the SHC before approaching the SCP with the right to appeal. Accordingly, a petition was filed in the SHC in respect of the above view. During the pendency of the appeal, an interim arrangement was agreed whereby bank guarantee furnished for consignments cleared up to 27 December 2006 were returned. Bank guarantees were furnished for 50% of the levy on the consignments released subsequent to 28 December 2006 while payment was made against the balance 50% amount.

After promulgation of the Act, 2017, the Holding Company instituted legal proceedings against the levy in the SHC, where interim stay was granted on similar terms of payment of 50% of the amount of cess to the GoS and on furnishing of bank guarantees for remaining 50%. Under the arrangement if the Holding Company succeeded in the petition, GoS would refund the amount subject to their right to appeal before SCP.

The petitions pending against all the versions of this law have been decided by the SHC by a consolidated judgment dated 4 June 2021 whereby the SHC has declared that the first four versions of the law upto the Sindh Finance (Second Amendment) Ordinance, 2001, were illegal and ultra vires as also held in the 2008 judgement of the SHC, to the extent of the petitioners who had litigated and were appellants in the earlier round for whom the applicability has attained finality and is a past and closed transaction. The 2021 judgement has validated the recovery of cess/fee effective from 28 December 2006, through the subsequent versions of the law.

The SHC suspended its judgment till 3 September 2021 and interim arrangement of payment of 50% of the amount of cess to the GoS and furnishing of bank guarantees for remaining 50% would continue, after which guarantees provided would be en-cashed and 100% of infrastructure cess would be payable if no such stay order is passed by the SHC in the appeals to be filed against the judgment of the SHC. The Holding Company intends to contest the issue in the SCP and as per the advice of the Company's legal counsel the chances of success in this litigation are in the Holding Company's favour.

Till 30 June 2021, the Holding Company has provided bank guarantees amounting to Rs. 166.54 million (2020: Rs. 156.039 million) in favour of Excise and Taxation Department, GoS.

Amount charged for the year has been estimated on the value of imports during the year and forms a component of cost of such imported raw materials. Any subsequent adjustment with respect to increase or decrease in the estimate has been recognized in the consolidated profit or loss. On a prudent basis, full provision has been recognized in this respect in these consolidated financial statements.

12.3.2 These have been made against long outstanding sales tax claims with the sales tax department.

12.3.3 This relates to amount recognized on account of liquidated damages on delayed supply of bare pipes and coated pipes. On a prudent basis full amount has been recognized in consolidated profit or loss.

Further, these facilities (refer notes 14.1 to 14.3) are also secured against pledge of shares owned by CS Capital (Private) Limited (subsidiary company).

15 CONTINGENCIES AND COMMITMENTS

15.1 Contingencies

- 15.1.1 During 2014-2015, a show cause notice was issued by the Deputy Director, Directorate of Post Clearance Audit (Customs) Karachi for payment of duties and taxes on import of certain raw materials. In response, the Holding Company had contested that the said imports were exempt under bilateral agreement between Government of Pakistan and Government of Japan for projects under grant and accordingly these were cleared by the customs. However, the collector customs issued an order dated 22 May 2015 for recovery of the said duty and taxes and penalty thereon amounting to Rs. 35.773 million. The Holding Company has filed an appeal with the Appellate Tribunal (Customs) against the order. Based on tax consultant's opinion, no provision has been recognized in these consolidated financial statements as the case is under appeal and management considers that the same would be decided in the Holding Company's favour.
- 15.1.2 During 2015-2016, a show cause notice was received from Sindh Revenue Board (SRB) in respect of registration as a service provider and a demand aggregating to Rs. 60 million in respect of sales tax on services was raised thereby. The Holding Company filed a constitutional writ in the SHC against the SRB and GoS in which SHC granted interim relief to the Holding Company.

Subsequently, the writ was decided in light of SCP's orders in similar writs where SCP had decreed for a 50% payment of tax demand in order to keep the writs maintainable.

Following closure of petition, the Holding Company received show cause notices and demands for Sindh Sales Tax payments amounting to Rs. 79 million, which were challenged in SHC in a civil suit as well as at the Appellate forums of the tax authority. Currently, the case is pending adjudication at the SHC as well as the Commissioner (Appeals) – SRB.

No provision has been recognized in these consolidated financial statements in this respect, since based on the opinions of tax consultant and the Holding Company's legal counsel, the management is confident of favorable outcome of the litigation in relation to the said matter.

15.1.3 Sindh Industrial Trade Estate (SITE) has cancelled allotment of plot A-26 and A-27 and charged non-utilization fees of Rs. 0.285 million and Rs. 0.621 million, respectively. The Holding Company has challenged the cancellation and filed a suit in the SHC. The SHC has restrained SITE from taking any adverse action against the Holding Company. Therefore, management considers that the case would be decided in the Holding Company's favour and no provision is required to be recognized in these consolidated financial statements.

15.2 Commitments

15.2.1 During 2015-2016, the Holding Company entered into Ijarah financing arrangement amounting to Rs. 600 million with Bank Islami Pakistan Limited (BIPL) for acquisition of Spiral Pipe (SP) machine. As per requirement of IFAS - 2 Ijarah financing has been treated as an operating lease. During the previous year, BIPL deferred the principal payments of rentals for one year as per the directives issued by State Bank of Pakistan vide its circular no. 12 dated 26 March 2020 which ended during the month of March 2021.

As at 30 June 2021, aggregate amount of lease rentals outstanding under the agreement is Rs. 87.985 million (2020: Rs. 121.692 million), which is payable in quarterly installments of Rs. 22.867 million (2020: Rs. 22.898 million) each approximately.

Details of future Ijarah payments under the arrangement are as follows:

The existing unutilised tax loss mainly attributable to tax depreciation which can be utilised for an indefinite period and unadjusted business losses which can be utilised for maximum six years against future taxable profits. The Holding Company carries out periodic assessment to determine the benefit of the loss and minimum tax that the Holding Company would be able to set off against the taxable profits and tax liability in future years. The amount of this benefit has been determined based on the projected taxable profits of the Holding Company for future years and the expected applicable tax rate. The determination of projected taxable profits are most sensitive to key assumptions such as volume of bare pipe sales and availability of electricity connection for billet segment.

* The face value of these ordinary shares is Rs. 3.5 per share.

28.3 This represents investment in ordinary shares of listed companies and units of mutual funds. Under IAS 39, these were classified as held for trading whereas under IFRS 9 these have been classified and held as FVTPL. This also includes investment in Jubilee Spinning and Weaving Mills Limited and Innovative Investment Bank Limited, which had been fully provided for as the break-up value of their shares was Rs. Nil per share (30 June 2020: Rs. Nil per share). Under IAS 39, these were classified as available for sale and reclassified to FVTPL on initial application of IFRS 9 as management has not designated it as FVOCI.

29.3 Sales tax refundable

- 29.3.1 This includes payment amounting to Rs. 2.665 million made to Punjab Revenue Authority (PRA) against order received for non withholding of Punjab sales tax on services and its deposit with Punjab Revenue Authority. Currently, the appeal is pending adjudication at the Appellate Tribunal Inland Revenue PRA. After consultation with legal advisor, the management considers that the appeal would be decided in the Holding Company's favour.
- 29.3.2 During the year 2020, order under section 11 of the Sales Tax Act, 1990 has been issued where demand of Rs. 1.83 million has been raised in respect of alleged short deposit of sales tax. An appeal was preferred with the Commissioner Appeals which was decided in the Holding Company's favour; however, an appeal against the order of the Commissioner Appeals has been filed by the Tax Department at the Appellate Tribunal which is pending adjudication.
- 29.3.3 During the current year, sales tax audit under section 11 of the Sales Tax Act, 1990 has been conducted and order raising demand of Rs. 1.01 million has been issued in respect of Hadeed (Billet) Division [before amalgamation, it was Crescent Hadeed (Private) Limited]. An appeal has been preferred with the Commissioner Appeals which is pending adjudication.
- 29.3.4 During the current year, orders have been issued under the Sales Tax Act, 1990, where demands aggregating Rs. 0.828 million have been raised in respect of Hadeed (Billet) Division [before amalgamation, it was Crescent Hadeed (Private) Limited]. Appeals have been preferred with the Commissioner Appeals which are pending adjudication.
- 29.3.5 In the previous years, the Holding Company adopted fixed regime of sales tax for Hadeed (Billet) division whereby sales tax liability was discharged on the basis of units of electricity consumed at Rs. 13 per unit instead of ad valorem basis supported by judgement of the Lahore High Court in writ petition no. 243530/2018. Subsequently, the department filed ICA No. 23517/2019 before High Court which is sub-judice. No proceedings have been held since.

30.1 The Income Tax assessments of the Holding Company have been finalized up to and including Tax Year 2020, except for pending appeal effect orders in respect of Tax Years 2002 and 2003. Deemed assessments for certain tax years have been amended by the department on account of various issues as explained below:

(a) Income tax assessment for Tax Year 2006 has been amended by the Additional Commissioner Inland Revenue (ACIR) by making amendments to reassess loss from Rs. 410.588 million to Rs. 296.866 million. The Holding Company being dissatisfied, contested the same before Commissioner Inland Revenue Appeals (CIRA) who vide his order disapproved the actions of ACIR. The department, being dissatisfied, over order of CIRA, filed an appeal before Appellate Tribunal Inland Revenue which dismissed the appeal in entirety. Department has now filed case in the Lahore High Court (LHC) challenging the tribunal's decision, which is pending to be heard.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

- (b) Income tax assessments of the Holding Company for the Tax Years 2013 and 2016 have been amended by the Commissioner Inland Revenue (CIR) whereby, tax demands of Rs. 95.94 million and Rs. 143.8 million have been raised, respectively. Appeals had been preferred with the Commissioner Appeals where most of the issues were decided in favour of the Company whereas for remaining issues, appeals have been preferred before the Appellate Tribunal Inland Revenue for these tax years which are pending adjudication. Cross appeal in Tax Year 2016 has been filed by the tax department which also awaits adjudication.
- (c) The Additional Commissioner Inland Revenue amended the deemed assessment of the Holding Company for Tax Year 2009 and Tax Year 2011 thereby raising demands of Rs. 4.937 million and Rs. 22.218 million, respectively. The Holding Company filed appeals with the Commissioner Inland Revenue (appeals) in which majority of the issues were decided in the Company's favour in case of Tax Year 2009 and the case was remanded back to the assessing officer for Tax Year 2011. The Holding Company filed appeal with the Appellate Tribunal for Tax Year 2009 which is pending adjudication where as for Tax Year 2011, set aside proceedings have been initiated which have been duly responded to.
- (d) Orders under section 161/205 of the Income Tax Ordinance 2001 have been issued by the Assistant Commissioner Inland Revenue, whereby demands aggregating to Rs. 8.691 million (inclusive of default surcharge) have been raised in respect of Tax Year 2014 and Rs. 5.794 million in respect of Tax Year 2010. Majority of the matters have been decided in favour of the Holding Company at the Commissioner (Appeals) level, whereas appeals have been preferred in Appellate Tribunal Inland Revenue for remaining issues.
- (e) During the current year, order under section 122(5A) has been passed by the Commissioner Inland Revenue for the Tax Year 2017 where expenses to the tune of Rs. 9.5 million have been disallowed. An appeal has been preferred with the Commissioner Appeals which is pending adjudication.
- (f) During the year 2018, orders under section 161/205 of the Income Tax Ordinance 2001 have been issued by the Assistant Commissioner Inland Revenue, whereby demand aggregating to Rs. 4.253 million (inclusive of default surcharge) has been raised in respect of Tax Year 2017. Appeal was preferred with the Commissioner Inland Revenue Appeals where majority of issues were decided in the Holding Company's favour along with rectification of original order. Appeal has been preferred with the Appellate Tribunal Inland Revenue for remaining issues which is pending adjudication.
- (g) During the current year, orders under section 161/205 of the Income Tax Ordinance 2001 were issued by the Assistant Commissioner Inland Revenue in respect of Tax Years 2016 through 2019 whereby demands aggregating Rs. 1 million (approximately) were raised for CS Energy (Private) Limited (previously wholly owned subsidiary - now amalgamated with and into the Holding Company). Associated expense has been recognised accordingly in these financial statements.

No provision has been made in these financial statements in respect of demand raised by the Income Tax authorities against matters stated in (a) to (f) as mentioned above, since based on the tax consultant's opinion the management is confident of favourable outcome of these appeals.

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

| Rupees in '000 | Pension | Gratuity |
|---|---------|----------|
| | | |
| Discount rate +1% | 450,324 | 108,437 |
| Discount rate -1% | 562,689 | 114,620 |
| Long term pension / salary increase +1% | 511,843 | 114,605 |
| Long term pension / salary decrease -1% | 491,511 | 108,398 |
| Long term pension increase +1% | 555,952 | - |
| Long term pension decrease -1% | 453,889 | - |

The actuary of the Holding Company has assessed that present value of future refunds or reduction in future contribution is not lower than receivable from pension and gratuity funds recorded by the Holding Company.

46.2 Defined contribution plan

The Group has set up provident fund for its permanent employees. The total charge against provident fund for the year ended 30 June 2021 was Rs. 11.816 million (2020: Rs. 11.106 million). Reporting year end of Provident Fund Financial Statements is 31 December and 30 June for Steel & IID Division, and Cotton & Hadeed (Billet) Division, respectively.

The investments out of the provident funds have been made in accordance with the provisions of Section 218 of the Companies Act, 2017 and the conditions specified there under.

47 FINANCIAL RISK MANAGEMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Fair value measurements using quoted (unadjusted) in active markets for identical asset or liability.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

The Group has not disclosed the fair values for all other financial assets and financial liabilities, as these are either short term in nature or reprice periodically. Therefore, their carrying amounts are reasonable approximation of fair value.

Investment property fair values have been determined by professional valuers (level 3 measurement) based on their assessment of the market values as disclosed in note 18.2. The valuations are conducted by the valuation experts appointed by the Group. The valuation experts used a market based approach to arrive at the fair value of the Group's investment properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in these consolidated financial statements.

47.1 Valuation techniques and significant unobservable inputs

48 FINANCIAL INSTRUMENTS

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Board of Directors has overall responsibility for the establishment and oversight of Group's risk management framework. The Board of Directors is also responsible for developing and monitoring the Group's risk management policies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

48.1 Credit risk

Credit risk represents the financial loss that would be recognized at the reporting date if counterparties fail completely to perform as contracted / fail to discharge an obligation / commitment that it has entered into with the Group. It arises principally from trade receivables, bank balances, security deposits, mark-up accrued and investment in debt securities.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date is as follows:

| Rupees in '000 | 2021 | 2020 |
|-------------------|---------|---------|
| | | |
| Deposits | 305,778 | 281,491 |
| Trade debts | 137,073 | 225,799 |
| Other receivables | 24,812 | 27,550 |
| Bank balances | 3,848 | 22,920 |
| | 471,511 | 557,760 |

Trade and other receivables

To manage exposure to credit risk in respect of trade and other receivables, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Sales tenders and credit terms are approved by the tender approval committee. Where considered necessary, advance payments are obtained from certain parties. Sales of steel segment made to major customers are secured through letters of credit. The management has set a maximum credit period of 15 days in respect of Cotton segment's sales to reduce the credit risk.

All the trade debtors at the reporting date represent domestic parties.

The maximum exposure to credit risk before any credit enhancements for trade debts at the reporting date by type of customer was as follows:

| Rupees in '000 | 2021 | 2020 |
|--|------------------|-----------|
| | | |
| Steel segment | 67,015 | 173,948 |
| Cotton segment | 12,981 | 2,691 |
| Energy segment | 41,083 | 4,637 |
| Hadeed (Billet) segment | 15,994 | 44,523 |
| | 137,073 | 225,799 |
| The aging of trade debts at reporting date is | 75 007 | E 4 0 7 4 |
| Not past due | 35,697 50,682 | 54,034 |
| Past due 1 - 30 days Past due 30 - 180 days | 6,802 | 23,109 |
| Past due 180 days | 67,106 | 44,324 |
| | 160,287 | 256,505 |
| Less: Impaired | 23,214 | 30,706 |
| | 137,073 | 225,799 |

The movement in the allowance for impairment in respect of trade debts is given in note 25.3.

The expected loss rates are based on the payment profiles of sales over a period of 60 months before 30 June 2021 and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Holding Company has identified the GDP and the unemployment rate of Pakistan in which it sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. Management uses actual historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment to determine lifetime expected loss allowance.

Loss rates are based on actual credit loss experience over the past five years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the trade debts.

Based on past experience the management believes that no impairment allowance is necessary, except mentioned above, in respect of trade debts past due as some receivables have been recovered subsequent to the year end and for other receivables there are reasonable grounds to believe that the amounts will be recovered in short course of time.

Settlement risk

All investing transactions are settled / paid for upon delivery as per the advice of investment committee. The Group's policy is to enter into financial instrument contract by following internal guidelines such as approving counterparties and approving credits.

Bank balances

The Group kept its surplus funds with banks having good credit rating. Currently, the surplus funds are kept with banks having rating from AAA to A-3.

The credit quality of the Group's investment in units of mutual funds can be assessed with reference to external credit rankings as follows:

| | Rankings | | Ranking 2021 | | 2020 | |
|-------------------------|--------------|----------|--------------|--------|-----------|--|
| | Short term L | ong term | Agency | Rupee | e in '000 | |

| HBL Investment Fund (A) | MFR 2-Star | - | VIS | 2,370 | 2,050 | |
| | | | | 22,332 | 20,088 | |

Deposits

The Group has provided security deposits and retention money as per the contractual terms with counter parties as security and does not expect material loss against those deposits retention money.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

Investment in debt securities

Credit risk arising on debt securities is mitigated by investing principally in investment grade rated instruments. Where the investment is considered doubtful a provision is created there against. The Group does not have debt security at reporting date.

Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly effected by the changes in economic, political or other conditions. The Group believes that it is not exposed to major concentration of credit risk.

48.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its obligation arising from financial liabilities that are settled by delivering cash or another financial asset or that such obligation will have to be settled in a manner disadvantageous to the Group. The Group is not materially exposed to liquidity risk as substantially all obligation / commitments of the Group are short term in nature and are restricted to the extent of available liquidity. In addition, the Group has obtained running finance facilities from various commercial banks to meet the short term liquidity commitments, if any.

The following are the contractual maturities of the financial liabilities, including estimated interest payments:

48.3 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The Investment Committee monitors the portfolio of its investments and adjust the portfolio in light of changing circumstances.

48.3.1 Currency risk

The Group is exposed to currency risk on import of raw materials, stores and spares and export of goods denominated in US Dollars (USD) and Euros. The Group's exposure to foreign currency risk for these currencies is as follows:

| | | 2021 |
|-------------------------------|-----------|--------|
| Rupees in '000 | USD | Euro |
| | | |
| Foreign creditors | - | - |
| Outstanding letters of credit | 5,465,635 | 21,060 |
| Net exposure | 5,465,635 | 21,060 |
| | | 2020 |
| Rupees in '000 | USD | Euro |
| Foreign creditors | - | - |
| Outstanding letters of credit | 1,305,452 | 19,250 |
| Net exposure | 1,305,452 | 19,250 |
| | | |

The following significant exchange rate has been applied:

| | Averag | ge rate | Reporting date rate | | |
|-------------|--------|---------|---------------------|--------|--|
| | 2021 | 2020 | 2021 | 2020 | |
| USD to PKR | 160.30 | 158.78 | 157.54 | 168.05 | |
| Euro to PKR | 191.13 | 175.66 | 187.27 | 188.61 | |

Sensitivity analysis

At the reporting date, if the PKR had strengthened by 10% against the USD and Euro with all other variables held constant, post-tax profit for the year would have been higher by the amount shown below, mainly as a result of net foreign exchange gain on translation of foreign creditors.

Effect on consolidated profit or loss

| Rupees in '000 | 2021 | 2020 |
|----------------|--------|---------|
| | | |
| USD | 87,614 | 130,545 |
| Euro | 403 | 1,925 |
| | 88,017 | 132,470 |

The weakening of the PKR against USD and Euro would have had an equal but opposite impact on the post tax profits.

The sensitivity analysis prepared is not necessarily indicative of the effects on the consolidated profit for the year and assets / liabilities of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

48.3.2 Interest rate risk

At the reporting date, the interest rate profile of the Group's significant interest bearing financial instruments was as follows:

| Long term loans | 8.19 - 10.16 | 10.12 - 14.99 | 171,280 | 239,680 |
| Lease liabilities | 6.16 - 17.6 | 7.24 - 18.42 | 110,923 | 111,287 |
| Short term borrowings | 8.12 - 10.54 | 9.79 - 16.18 | 1,542,306 | 2,702,863 |

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have decreased / (increased) the consolidated profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2020.

| | | nd loss) bp |
|---|----------|-----------------|
| Rupees in '000 | Increase | Decrease |
| | | |
| As at 30 June 2021 | | |
| Cash flow sensitivity - Variable rate financial liabilities | (19,399) | 19,399 |
| | | |
| As at 30 June 2020 | | |
| Cash flow sensitivity - Variable rate financial liabilities | (30,538) | 30,538 |

The sensitivity analysis prepared is not necessarily indicative of the effects on the consolidated profit for the year and assets / liabilities of the Group.

48.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). Other price risk arises from the Group's investment in units of mutual funds and ordinary shares of listed companies. To manage its price risk arising from aforesaid investments, the Group diversifies its portfolio and continuously monitors developments in equity markets. In addition the Group actively monitors the key factors that affect stock price movement.

A 10% increase / decrease in redemption and share prices at year end would have decreased / increased the Group's gain / loss in case of Fair value through profit or loss and increase / decrease surplus on re-measurement of investments in case of fair value through other comprehensive income investments as follows:

| Rupees in '000 | 2021 | 2020 |
|-----------------------|--------|--------|
| | | |
| Effect on profit | 43,697 | 33,969 |
| Effect on equity | 18,328 | 13,287 |
| Effect on investments | 62,025 | 47,256 |

The sensitivity analysis prepared is not necessarily indicative of the effects on the consolidated profit for the year and assets / liabilities of the Group.

The loan is repayable on demand.

51 CAPITAL RISK MANAGEMENT

The Group's prime objective when managing capital is to safeguard its ability to continue as a going concern in order to provide adequate returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Group's overall strategy remains unchanged from year 2020.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payments to shareholders or issue new shares. The management seeks to maintain a balance between higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Group finances its operations through equity, borrowings and management of working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk.

The Group is not subject to any externally imposed capital requirements.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total debt less cash and bank balances. Total capital is calculated as equity as shown in the consolidated statement of financial position plus net debt.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS For the year ended 30 June 2021

51.1 Gearing ratio

The gearing ratio at end of the year is calculated as follows:

| Rupees in '000 | Note | 2021 | 2020 |
|------------------------------|--------|-----------|------------|
| | | | |
| Total debt | 51.1.1 | 1,939,943 | 3,053,830 |
| Less: Cash and bank balances | | 4,213 | 23,748 |
| Net debt | | 1,935,730 | 3,030,082 |
| | | | |
| Total equity | 51.1.2 | 7,968,420 | 7,008,263 |
| Total capital | | 9,904,150 | 10,038,345 |
| | | | |
| Gearing ratio | | 20% | 30% |

- 51.1.1 Total debt is defined as long term loan, lease liabilities and short term borrowings (excluding derivatives), as described in notes 9, 10 and 14 to these consolidated financial statements.
- 51.1.2 Total equity includes issued, subscribed and paid-up capital and reserves.

52 PLANT CAPACITY AND PRODUCTION

52.1 Steel segment

Pipe plant

The plant's installed / rated capacity for production based on single shift is 66,667 tons (2020: 66,667 tons) annually on the basis of notional pipe size (Where as the notional pipe size is taken as 30" dia x $\frac{1}{2}$ " thickness for SP1600 and 40" dia x 5/8" thickness for SP 2003). The actual production achieved during the year was 15,400 tons (2020: 7,965 tons) line pipes of varied sizes and thickness. Actual production is equivalent to 52,113 tons (2020: 34,527 tons) when translated to the notional pipe size of 30" diameter. Reason for underutilization was delay in materialization of orders for different projects.

Coating plant

The coating plant has a capacity of shot blasting and coating of line pipes with single layer FBE and multilayer polyolefin coatings on pipe sizes ranging from 114 mm to 1,524 mm outside dia.

The annual capacity of the plant works out to 600,000 square meters outside surface area of line pipes based on notional size of 14" dia on single shift working. Coating of 30,528 meters (2020: 128,416 meters) of different dia pipes 22,587 square meters surface area was achieved during the year (2020: 88,647 square meters surface area). Reason for underutilization was lack of coating work orders in hand.

Steel melting plant

The designed capacity of plant is 85,000 mtons (2020: 85,000 mtons) of billets per annum, but the total production during FY20-21 was 20,949.62 mtons (2020: 10,894 mtons) of billets. Unit operated only for about five months on self-generated (Inter division) power supply that was only compatible during crushing season of three months and two months on bagasse (purchased) on off and on basis. Production was suspended for rest eight months period because of no alternative power supply arrangements.

52.2 Cotton segment

Spinning unit

The plant capacity converted to 20s count polyester cotton yarn based on three shifts per day for 1,092 shifts is 9,197,007 kilogram (2020: 9,197,007 kilograms). Actual production converted into 20s count was 8,790,199 kilograms for 1,092 shifts (2020: 7,190,635 kilograms for 921 shifts).

52.3 Energy segment

The plant's installed production capacity was 118,856 MWh (2020: 118,856 MWh) and the actual production achieved during the year was 26,207 MWh (2020: 16,341 MWh). Reason for underutilization was that no power was supplied to FESCO and power generation was restricted to actual demand of the two customers, Hadeed (Billet) segment (internal customer) and Shakarganj Limited (external customer).

53 COMPARATIVE INFORMATION

The corresponding figures have been rearranged and reclassified, wherever considered necessary for the purpose of better presentation.

54 GENERAL

54.1 Number of employees

The total number of employees including contractual employees of the Group as at 30 June 2021 were 765 (2020: 778) and weighted average number of employees were 766 (2020: 769).

The number of factory employees including contractual employees of the Group as at 30 June 2021 were 683 (2020: 699) and weighted average number of employees were 685 (2020: 690).
