

Crescent Steel and Allied Products Limited

Health, Safety and Environmental Policy

Crescent Steel and Allied Products Limited (CSAPL) is a progressive manufacturing organization, producing large diameter steel pipes and applying anti-corrosion and flow coatings.

CSAPL is committed to provide a safe, healthy and environment friendly workplace to its employees and those who are associated with it and proactively strives to eliminate hazards, prevent environmental pollution and reduce Occupational Health & Safety risks and adverse environmental impacts arising from the workplace and products that can affect employees, other stakeholders or the environment.

CSAPL encourages consultation and participation of workers in HSE related matters and considers compliance, with HSE policy, a responsibility of everyone associated with it. The organization is also committed to comply with applicable legal, regulatory and other HSE requirements and continually improve by setting objectives and targets under a comprehensive HSE Management System.
